Local Items

A general meeting of the members of the Chinook doctor scheme will be held in the School on Saturday evening, April 26, at 8 o'clock. To make this meeting a success everyone in the district should attend.

Mr and Mrs John Down and daughter Vera, of Cereal, spent Sunday at the home of Mr. and Mrs. M. L. Chapman. They left Monday morning for Wainwright where they intend to reside.

E. C. Fry returned to his farm west of town last Thursday after spending the winter at Vernon, Wash.

E. E. Noble shipped a car load of horses to Wadena, Sask., on Monday.

Mrs. Fred Otto entertained last Friday a party of young people in honor of her daughter Madeline's twelfth birthday. The table was nicely decorated and centred with a huge birthday cake bearing twelve candles. After tea, games of various kinds were engaged in, and a pleasant time was had by all.

Miss Evelyn Gill has been visiting for the past month at the home of her aunt Mrs. E. P. Smith.

A. V. Turner was a visitor in Calgary during the Easter holidays.

Miss Ross, teacher at Craig Murray school, visited Mrs. Glover during the Easter vacation.

Miss Neff and Miss Whiteside are attending the provincial convention of teachers held in Calgary this week.

A beginners class will be started in the Chinook School if a sufficient number attend when the primary room re-opens after the Easter holidays.

Mr. and Mrs. E. E. Jacques and son, Mr. and Mrs. O. Hinds, Miss Schofield, of Youngstown, Mr. and Mrs. J. Montgomery and daughter, and Mrs. J. T. Kerr motored to Oyen Easter Sunday morning and attended Mass there.

Mr. and Mrs. J. C. Sinclair, of Eaton, Sask., spent the Easter holidays visiting the home of Mr. and Mrs. R. Stewart. Mr. Sinclair is a brother of Mrs. Stewart.

Mrs. Marcy entertained party of young folks last Sunday at a birthday tea in honor of her daughters, Irene, Ida, and Doris whose birthdays all occur in April. About 20 young people turned out and thoroughly enjoyed Mrs. Marcy's hospitality.

The Ladies Aid of the Union Church held a very successful parcel post sale last Saturday afternoon. As a result of this effort the sum of \$40 was realized.

Mrs. G. H. Strong, of Big Springs, entertained a few friends last Thursday in honor of her daughter Mary's first birthday.

Miss Nellie Schofield, Youngstown, has been spending a part of the Easter holidays at the Jacques' home.

Chinook Golf Club Organize For The Season

The Chinook Golf Club tee'd off for the biggest membership drive in its history. A meeting was held Monday evening at 8 o'clock in Harry Smith's store. Plans were laid for an enthusiastic season of Golf. The Greens are to be renovated and much work is to be done on the course. Arrangements for a Golf Tournament are to be completed later. Already one hundred and fifty dollars has been collected in fees, and it is expected that many new members will be obtained. The following officers were elected: President, S. H. Smith; Vice-President, W. A. Cruickshank; Secretary, W. Colton. Ground Committee:—W. Hurley, E. E. Jacques, M. Chapman, D. Bell and W. Cruickshank. Membership Committee—W. A. Cruickshank, L. S. Dawson, J. T. Kerr, and D. McKenzie. The membership fees are to be Gentlemen \$10, Ladies \$5, and School children \$1.

Nurse Mundie, of Kindersley, spent Easter with Mr. and Mrs. C. J. Wardlaw.

Mrs. Gordon and sons, of Hanna, are guests at the home of Mr. and Mrs. S. H. Smith.

According to the basis on which Alberta is now receiving subsidy from the Federal Government, the population of the Province is estimated to be 645,000. The 1921 census gave the population at 588,000.

Have you
ordered
your
Ford?

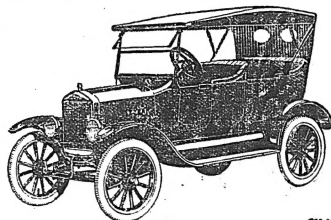

Spring is here and the finest motoring days of the year are but a few weeks away.

A Ford car offers a splendid means of relaxation after the hard grind of the day's work. More than that, it gives your family a means of enjoyment and opens the way to many forms of recreation in the open air. And it enables all of you to enjoy the convenience of motor transportation at all times.

If you are planning to drive a car this spring we cannot urge too strongly the advisability of placing your order for immediate delivery.

On To The Bay!

In the wide-spread—almost universal—demand in Canada for reduced expenditure and reduction in taxation, and which it is pleasing to note is making itself felt at Ottawa, in the several provincial capitals, and in practically all municipal centres, there is some degree of danger that people will be unthinkingly condemn all expenditures on new projects without taking the trouble to ascertain whether expenditures in certain directions may not be true economy. There is also the danger that interested parties will endeavor to capitalize the popular demand in order to defeat projects which, because of self-interest, they oppose.

It is the root of a \$5,000,000 building calls for repairs, and heavy loss will result unless needed repairs are made, it will be the height of folly to refuse the necessary expenditure for such repairs. If the economical handling of the output of a factory was prevented because of lack of a railway siding, it would be foolish to save the cost of such siding at the expense of the proper management and development of the industry. Yet signs are not lacking that, in the demand for reduction in expenditures, just such foolishness will be followed in the management of public business.

The completion of the Hudson Bay Railway is a case in point. Canada has spent some tens of millions on this railway. A hundred or more miles of track has been laid, and more miles of roadbed graded. Large sums have been expended on terminal facilities. Every cent of this money is absolutely wasted, thrown away, unless further expenditures are made to complete the undertaking. Yet the writer of a series of articles in a Toronto publication on extravagance at Ottawa and the "pork barrel" singles out the Hudson Bay Railway for attack and denounces the spending of another dollar on it. He charges that it is a purely political undertaking, a huge scheme at public expense to buy votes in the West.

The fact remains that the Hudson Bay Railway is approved not by one party seeking votes, but by all three political parties in Canada. It is demanded by all the Provincial Legislatures in the Western Prairie Provinces, by all representative public bodies in the West, and by the people generally. If there is one thing required in the West today it is a restoration of confidence, and an announcement of the immediate completion of the road to the Bay would do more than any other one thing to restore confidence.

Eastern cities, particularly in Montreal and Toronto, scoff at the feasibility of the Hudson Bay route. Their opposition is, clearly, based rather on fear of its feasibility and success and consequent loss of Western grain traffic passing through or paying toll to these cities. Admittedly, the Hudson Bay route can be used only a portion of the year. But this is likewise true of the ports of Montreal, Quebec and Toronto. Yet Canada has spent hundreds of millions on these ports in order that they may be used for certain months each year, and the money has been well spent. But if the cities of a by-gone day had had their way, these inland ports would not have been developed and Canada would have depended on the all-year-round seaports of the Maritime Provinces.

People scoffed at Christopher Columbus. Canada itself was described as so many acres of ice and snow not worth the keeping. Within the memory of the writer a Toronto syndicate declined a franchise for an electric street railway in Ottawa because it could not be successfully operated on account of the heavy snowfall. Pages might be filled with similar evidence of scoffers and critics of by-gone days.

Canada is committed to the Hudson Bay Railway. It will be completed some day. Then why not now and begin to reap the benefits of its construction and operation? Critics and opponents say this is not the time because Canada must reduce expenditures and economize. But Canada's financial position will demand economy and careful scrutiny of expenditures not merely in 1921 but for the next twenty-five or fifty years until our war debt is paid off. It is sincerely to be hoped that the present public demand for retrenchment and reduction in taxation is not a "flash in the pan," spasmodically made and quickly forgotten. If that is all it is, then it will be worse than useless for the tendency will be to follow it with a new orgy of extravagance.

Every year that passes without the completion of the Hudson Bay Railway means economic loss to Western Canada and its people. It means retarding the development and prosperity of this section of the Dominion, which will reflect adversely on all Canada. Every year means greater deterioration in the work already done on the road, consequently additional expenditure ultimately.

On all counts, therefore, now is the time to proceed with the completion of the railway as rapidly as possible. Its ultimate completion cannot be prevented; it can only be delayed. Inasmuch as delay means all round loss, then in the name of reason, why delay? Rather, let us go "on to the Bay" with all possible speed.

Butter Shipments to United States

Saskatchewan Product is Shipped by the Carload to Points South of the Line

For the first time in the past two or three years the Saskatchewan Co-operative Creameries, Limited, is shipping butter in carload lots direct to cities in the United States. A carload shipment was recently made from Saskatchewan to Philadelphia. Two carloads were also shipped to Chicago, where they realized good prices. Each car contained between 25,000 and 30,000 lbs. of Saskatchewan butter.

It is easy to get anything you want—if it happens to be something that nobody else will have.

England Wants African Cotton

British Government Will Foster Production in Kenya

The intention of the government to foster cotton production in Kenya, Africa, has been indicated by Colonel Secretary J. H. Thomas in the House of Commons. All the evidence, he said, showed that cotton could be grown in Kenya far more extensively than it had been, and it is the kind of cotton that is particularly suitable for the Lancashire trade. "If we can grow cotton within the Empire," he said, "it is our obvious duty to do so."

Some love affairs end at the altar—but the majority never get that far.

"Worth \$100 to Me Relieved Eczema and Piles"

Mrs. Peter A. Palmer, Saltburn, Sask., writes:

"Dr. Chase's Ointment has completely relieved me of eczema and piles. I also used this Ointment for my baby, who broke out in eczema. A few applications were all that was necessary in her case. Dr. Chase's Ointment has been worth a hundred dollars to me, before using it. I had spent a great deal more than that in unsuccessful treatment from doctors. We have also used Dr. Chase's other medicines, the Nerve Food having restored my health after suffering from severe nerve trouble when a girl."

Dr. Chase's Ointment

Secure Scientific Data

Smithsonian Institution Describes

Exploration and Field Work

The Smithsonian Institute at Washington has just issued an illustrated pamphlet describing the explorations and field work conducted by members of its staff or in co-operation with other organizations during 1923. Besides many localities in the United States, the regions visited include the Canadian Rockies; the Lang-Tze Valley, China; several islands of the West Indies; Panama and Central America; Labrador and various countries in Europe. The branches of science represented include geology, paleontology, astrophysics, zoology, botany, anthropology and ethnology.

Secretary Charles D. Walcott continued his geological research in the Canadian Rocky mountains, working especially on the pre-Devonian strata from the Clearwater River southeast to the Bow Valley and along the eastern side of the Columbia River Valley. The latter region was found to be excellent for geological studies, as the many canyons and ridges give access to several of the formations from top to bottom. Beneath the great series of limestone, shales and sandstones there are 16,000 feet of older stratified rocks.

As a verminiferous effective preparation is Mother Graves' Worm Expeller, and it can be given to the most delicate child without fear of injury to the constitution.

China For Empire Exhibition

Two Million Pieces Will Be Required For Restaurants

Although the public is being educated daily in the gigantic proportions of the Empire Exhibition, it is somewhat astonishing to learn that two million pieces of china will be required to maintain the service in the twenty-five restaurants and cafes there. Of this 98 per cent. is to be made in the potteries by English firms, and 2 per cent. represents the special decorative ware which will be ordered from the continent for the most exclusive of the restaurants, to which the name "Laculmills" has been given.

An order for 3,000,000 of table silver has already been placed with a Birmingham firm, and in all 450,000 spoons, forks and knives will be required there. Orders for table linen will embrace 730,000 pieces, and 750,000 glasses, 45,000 chairs and 7,500 tables will be required. The largest kitchen at the exhibition will be admirably equipped and will be a third of an acre in extent.

SATISFIED MOTHERS

No other medicine gives as great satisfaction to mothers as does Baby's Own Tablets. These Tablets are equally good for the newborn babe or the growing child and are absolutely safe. They cannot possibly do harm—always good. The Tablets are mild but thorough laxative which regulate the bowels and strengthen the stomach and thus relieve baby of any of the minor ills of childhood such as constipation, indigestion, colic, etc. Concerning them Mrs. Arthur C. Fillion, St. Sylvester, Que., writes: "Baby's Own Tablets have been of wonderful benefit to my baby who was suffering from constipation and indigestion. I always keep the Tablets on hand and would advise all mothers to do likewise." The Tablets are sold by medicine dealers or by mail at 25 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

Woman Is Candidate

Mrs. H. McGregor, of Pontleith, B.C., well-known in various women's organizations, has been chosen as the Liberal candidate for the provincial legislature from Similkameen riding. The nomination was made at a convention at Keremeos.

Two Important Food Factors

Clark's Beans with Pork possess two important food factors. While being a most wholesome food they are delicious and appetizing. No trouble—most heat and serve.

"Let the Clark Kitchens help you."

Japs Disturbed

Over "Yellow Snow"

Dust From Gobi Desert Is Explanation of Scientists

A fall of "yellow snow" is reported from Nigata, on the northwestern coast of Japan. The inhabitants of the region are much disturbed, considering the phenomenon an omen of evil import, but scientists have an explanation.

They believe that clouds of the yellow dust from the Gobi desert, which frequently are driven over North China and are especially well known in Peking, have been carried across the Sea of Japan to Nigata. Local inhabitants of the Nigata district recall that half a century ago there was a fall of "red snow" in that region.

It takes a bachelor to give you pointers on the fair sex. A married man never has a word to say on the subject.

Minard's Liniment for Corns

Sugar Once Used As Drug

Sold in Great Britain For Forty-Three Cents a Pound

"As you pour a little sugar in your tea or coffee, did you ever stop to think that one time it was used as a drug and it cost forty-three cents a pound?"

This was one of the main topics in a lecture given to the Technical Science Club of the Edmonton Technical School, by A. F. Lehmann, professor of chemistry at the University of Alberta, when he spoke on sugar. Professor Lehmann told of the first step for sugar being in India and Siam, and how it was later taken to Great Britain where it was at first used as a drug. Why it was used this way and the quantity consumed at that time is not known, he said. A large cargo in those days consisted of fifty tons sold at forty-three cents a pound.

The speaker described the sugar as being stored in the stem of the plant, which was similar to the Indian corn. The plant has no seed but is sprouted with slips from the cane. It is harvested yearly and Dr. Lehmann said the sugar from the beet, the maple tree and the cane were just the same, the only difference being in the purities. He mentioned that the impurities in the maple sugar were pleasing to the taste, but those in the beet and the cane were nasty. Thus great pains had to be taken in the refining of these sugars, especially in the case of the beet.

Colds Stopped In Ten Minutes

There is a new remedy that fills the nose, throat and lungs with a healing balsam from the pine woods, and utilizes that marvelous antiseptic of the Pine Gum Tree of Australia.

The remedy is "CATARRHOZONE"—and you can't find it equal for colds, coughs or catarrhs.

Composed of medicinal pine essences—a remedy of nature, that's what CATARRHOZONE is, and you'll find it quick to act and certain to stop your cold.

Don't drop your stomach with cough mixtures—use CATARRHOZONE, which is scientific and certain. It will act quickly. Two months' treatment guaranteed, costs \$1.00; small bottles 50c. Sold by druggists everywhere. By mail from The Catarrhozone Co., Montreal.

Extension of Telegraph Lines

To Spend Half Million in Telegraph Lines in B.C.

An investment of \$500,000 in British Columbia on new telegraphic lines centering at Vancouver, is to be undertaken by the Canadian Pacific Railway's telegraphs, it is announced by W. Marshall, general manager of western telegraph lines.

Two new lines will connect Vancouver with Sumas and Calgary, increasing the service to compensate for the growth of business in this part.

One effect will be direct connection with Portland, as the Sumas line will join with the postal wire at that point.

The Oil of Power.—It is not claimed for Dr. Thomas' Electric Oil that it will remedy every ill but its uses are so various that it may be looked upon as a general pain killer. It has achieved that greatness for itself and its excellence is known to all who have tested its virtues and learned by experience.

Indian Women Follow Style

Bobbed hair and permanent waves are quite the fashion among Indian women and their mothers. Resolved not to let their white sisters put anything over on them in the way of style, numerous Indian women here are exhibiting new modes of hair dressing.

RED PIMPLES ALL OVER FACE

Itched and Burned. Face a Slight. Cuticura Heals.

"My face came out all over in little red pimples and then it would itch. I would rub and scratch and then began to feel itched and burned and at night would burn me. My face was a sight. I tried different remedies without success, and then began using Cuticura Soap and Ointment which completely healed me in two weeks." (Signed) Mrs. Eva M. Toole, Gandy Harbor, Maine, March 13, 1922.

Use Cuticura for every-day toilet purposes. Bathe with Cuticura with Ointment, dust with Talcum.

Sample Cuticura Soap and Ointment Free by Mail. Address: "Cuticura," Dept. 512, Portland, Me., U.S.A. Where Sold: Cuticura Soap and Ointment Free by Mail. Theatrical Treat In Store

All-Star Cast In "Lightnin'" Visits Saskatoon and Regina Next Week

Going directly from their sensational two weeks' engagement in Winnipeg, John Golden's "Lightnin'" company will play engagements of three days each in Saskatoon and Regina next week. The Saskatoon engagement will open Monday night, April 28, at the Empire Theatre and a matinee is announced for Wednesday. Beginning at the Regina Theatre Thursday night, May 1, the company will remain for three nights and Saturday matinee.

Reports from both cities forecast a cordial welcome for the organization, which is rated as one of the most distinguished that has been sent through Northwestern Canada in many years. Thomas Jefferson, who is playing the title role, which the late Frank Bacon created, is a son of the late Joseph Jefferson, who immortalized "Rip Van Winkle." Miss Bessie Bacon, who appeared in her father's support during "Lightnin's" historic run of three years on Broadway, is also a member of the company, appearing in the role of the vamping vaudeville actress.

The company will be sent to London in the early summer.

Separation, But No Alimony

A peaceful, quiet separation, no damage done, everybody happy again—that's the situation when you divorce your corns. Try Putnam's Corn Extractor. Acts like magic, no pain, no failure, success every time. Refuse a substitute for "Putnam's," 25c everywhere.

Good Market For Wool

Could Dispose of Three Times the Amount of Wool Produced in This Country

There is at present a market for three times the amount of wool produced in this country, according to W. W. Thompson, western manager of the Canadian Co-operative Wool Growers, Limited. While in 1922 Canada exported 5,600,000 pounds of wool, that's the situation when you divorce your corns. Try Putnam's Corn Extractor. Acts like magic, no pain, no failure, success every time. Refuse a substitute for "Putnam's," 25c everywhere.

Insulted French Flag

The French Government has demanded satisfaction from Germany for the recent incident in East Prussia, when enthusiastic members of militarist societies, including a few members of the Reichswehr, slashed a French tri-color to ribbons.

NOTE—We guarantee these Batteries Eighteen Months. If used 4-10-15-20-25-30-35-40-45-50-55-60-65-70-75-80-85-90-95-100-110-120-130-140-150-160-170-180-190-200-210-220-230-240-250-260-270-280-290-300-310-320-330-340-350-360-370-380-390-400-410-420-430-440-450-460-470-480-490-500-510-520-530-540-550-560-570-580-590-600-610-620-630-640-650-660-670-680-690-700-710-720-730-740-750-760-770-780-790-800-810-820-830-840-850-860-870-880-890-900-910-920-930-940-950-960-970-980-990-1000-1010-1020-1030-1040-1050-1060-1070-1080-1090-1100-1110-1120-1130-1140-1150-1160-1170-1180-1190-1200-1210-1220-1230-1240-1250-1260-1270-1280-1290-1300-1310-1320-1330-1340-1350-1360-1370-1380-1390-1400-1410-1420-1430-1440-1450-1460-1470-1480-1490-1500-1510-1520-1530-1540-1550-1560-1570-1580-1590-1600-1610-1620-1630-1640-1650-1660-1670-1680-1690-1700-1710-1720-1730-1740-1750-1760-1770-1780-1790-1800-1810-1820-1830-1840-1850-1860-1870-1880-1890-1900-1910-1920-1930-1940-1950-1960-1970-1980-1990-2000-2010-2020-2030-2040-2050-2060-2070-2080-2090-2100-2110-2120-2130-2140-2150-2160-2170-2180-2190-2200-2210-2220-2230-2240-2250-2260-2270-2280-2290-2300-2310-2320-2330-2340-2350-2360-2370-2380-2390-2400-2410-2420-2430-2440-2450-2460-2470-2480-2490-2500-2510-2520-2530-2540-2550-2560-2570-2580-2590-2600-2610-2620-2630-2640-2650-2660-2670-2680-2690-2700-2710-2720-2730-2740-2750-2760-2770-2780-2790-2800-2810-2820-2830-2840-2850-2860-2870-2880-2890-2900-2910-2920-2930-2940-2950-2960-2970-2980-2990-3000-3010-3020-3030-3040-3050-3060-3070-3080-3090-3100-3110-3120-3130-3140-3150-3160-3170-3180-3190-3200-3210-3220-3230-3240-3250-3260-3270-3280-3290-3300-3310-3320-3330-3340-3350-3360-3370-3380-3390-3400-3410-3420-3430-3440-3450-3460-3470-3480-3490-3500-3510-3520-3530-3540-3550-3560-3570-3580-3590-3600-3610-3620-3630-3640-3650-3660-3670-3680-3690-3700-3710-3720-3730-3740-3750-3760-3770-3780-3790-3800-3810-3820-3830-3840-3850-3860-3870-3880-3890-3900-3910-3920-3930-3940-3950-3960-3970-3980-3990-4000-4010-4020-4030-4040-4050-4060-4070-4080-4090-4100-4110-4120-4130-4140-4150-4160-4170-4180-4190-4200-4210-4220-4230-4240-4250-4260-4270-4280-4290-4300-4310-4320-4330-4340-4350-4360-4370-4380-4390-4400-4410-4420-4430-4440-4450-4460-4470-4480-4490-4500-4510-4520-4530-4540-4550-4560-4570-4580-4590-4600-4610-4620-4630-4640-4650-4660-4670-4680-4690-4700-4710-4720-4730-4740-4750-4760-4770-4780-4790-4800-4810-4820-4830-4840-4850-4860-4870-4880-4890-4900-4910-4920-4930-4940-4950-4960-4970-4980-4990-5000-5010-5020-5030-5040-5050-5060-5070-5080-5090-5100-5110-5120-5130-5140-5150-5160-5170-5180-5190-5200-5210-5220-5230-5240-5250-5260-5270-5280-5290-5300-5310-5320-5330-5340-5350-5360-5370-5380-5390-5400-5410-5420-5430-5440-5450-5460-5470-5480-5490-5500-5510-5520-5530-5540-5550-5560-5570-5580-5590-5600-5610-5620-5630-5640-5650-5660-5670-5680-5690-5700-5710-5720-5730-5740-5750-5760-5770-5780-5790-5800-5810-5820-5830-5840-5850-5860-5870-5880-5890-5900-5910-5920-5930-5940-5950-5960-5970-5980-5990-6000-6010-6020-6030-6040-6050-6060-6070-6080-6090-6100-6110-6120-6130-6140-6150-6160-6170-6180-6190-6200-6210-6220-6230-6240-6250-6260-6270-6280-6290-6300-6310-6320-6330-6340-6350-6360-6370-6380-6390-6400-6410-6420-6430-6440-6450-6460-6470-6480-6490-6500-6510-6520-6530-6540-6550-6560-6570-6580-6590-6600-6610-6620-6630-6640-6650-6660-6670-6680-6690-6700-6710-6720-6730-6740-6750-6760-6770-6780-6790-6800-6810-6820-6830-6840-6850-6860-6870-6880-6890-6900-6910-6920-6930-6940-6950-6960-6970-6980-6990-7000-7010-7020-7030-7040-7050-7060-7070-7080-7090-7100-7110-7120-7130-7140-7150-7160-7170-7180-7190-7200-7210-7220-7230-7240-7250-7260-7270-7280-7290-7300-7310-7320-7330-7340-7350-7360-7370-7380-7390-7400-7410-7420-7430-7440-7450-7460-7470-7480-7490-7500-7510-7520-7530-7540-7550-7560-7570-7580-7590-7600-7610-7620-7630-7640-7650-7660-7670-7680-7690-7700-7710-7720-7730-7740-7750-7760-7770-7780-7790-7800-7810-7820-7830-7840-7850-7860-7870-7880-7890-7900-7910-7920-7930-7940-7950-7960-7970-7980-7990-8000-8010-8020-8030-8040-8050-8060-8070-8080-8090-8100-8110-8120-8130-8140-8150-8160-8170-8180-8190-8200-8210-8220-8230-8240-8250-8260-8270-8280-8290-8300-8310-8320-8330-8340-8350-8360-8370-8380-8390-8400-8410-8420-8430-8440-8450-8460-8470-8480-8490-8500-8510-8520-8530-8540-8550-8560-8570-8580-8590-8600-8610-8620-8630-8640-8650-8660-8670-8680-8690-8700-8710-8720-8730-8740-8750-8760-8770-8780-8790-8800-8810-8820-8830-8840-8850-8860-8870-8880-8890-8900-8910-8920-8930-8940-8950-8960-8970-8980-8990-9000-9010-9020-9030-9040-9050-9060-9070-9080-9090-9100-9110-9120-9130-9140-9150-9160-9170-9180-9190-9200-9210-9220-9230-9240-9250-9260-9270-9280-9290-9300-9310-9320-9330-9340-9350-9360-9370-9380-9390-9400-9410-9420-9430-9440-9450-9460-9470-9480-9490-9500-9510-9520-9530-9540-9550-9560-9570-9580-9590-9600-9610-9620-9630-9640-9650-9660-9670-9680-9690-9700-9710-9720-9730-9740-9750-9760-9770-9780-9790-9800-9810-9820-9830-9840-9850-9860-9870-9880-9890-9900-9910-9920-9930-9940-9950-9960-9970-9980-9990-10000-10010-10020-10030-10040-10050-10060-10070-10080-10090-10100-10110-10120-10130-10140-10150-10160-10170-10180-10190-10200-10210-10220-10230-102

Three Prairie Provinces Now Occupy A Supreme Place In Canadian Dairy Industry

Once more in 1923, the three prairie provinces of Canada, Manitoba, Saskatchewan and Alberta, a territory which five or six years ago was importing butter even into its own districts, record a substantial increase in butter production and further consolidated its position in the dairy industry. Comparing the year 1923 with 1922, the increase in the output in creamery butter in Manitoba amounts to 15 per cent, in Saskatchewan to 25.1 per cent, and in Alberta to 35.1 per cent.

The latter production of Manitoba in 1923 amounted to 10,750,150 pounds as compared with 9,550,501 pounds in 1922 and 8,511,095 in 1921. That of Saskatchewan in 1923 was 10,867,910 pounds, compared with 9,301,114 pounds in 1922 and 7,990,095 in 1921. Alberta's production rose from 12,225,251 pounds in 1921 to 15,417,470 pounds in 1922 and 17,559,999 in 1923. Production in the three provinces taken together in the past three years is as follows: 1921, 28,500,121; 1922, 34,667,815; 1923, 38,817,169 pounds.

The rapid ascendancy of the prairie territory to a supreme place in the Canadian dairy industry has been one of the most marked phases of the Dominion's agriculture in the past decade. It is the result of the most serious attention paid to the industry, the adoption of modern methods and the pursuit of most zealous care. It is the result of more profitable diversified farming. In its wake have come splendid dairy cattle, which the west has slowly developed and than which there are none superior in Canada.

The remarkable progress which has been made in dairy production is only realized in a comparison with past years. Going back to the beginning of the past decade, the production of the three prairie provinces in 1918 was 1,361,917 pounds, or insufficient for domestic consumption. In 1922 the same territory produced nearly 40,000,000, or practically ten times as much. Alberta increased its production from 123,479 to 17,559,999 pounds; Saskatchewan from 2,298,755 to 10,867,910 pounds; and Manitoba from 674,713 pounds to 10,750,150 pounds.

With a production in excess of domestic consumption the high quality of prairie butter, consistently maintained, easily secured entry for it into foreign markets, and large quantities now find their way to the United States and across the Atlantic. In 1923 Manitoba exported 180 carloads of creamery butter containing 8,662,251 pounds, which found its way not only to Eastern Canada but to the United Kingdom, Chicago and New York. Saskatchewan's export of butter in 1923 amounted to 7,178,751 pounds, or 66.1 per cent of its total production. Of this only 25 cars went west, the remainder of 283 cars going to Eastern Canada, the United States and British markets.

Gratifying reports concerning the quality of Saskatchewan butter and its suitability for the best British trade were received from a number of British dairies. During the year the province of Alberta shipped its first butter to the United Kingdom via the Panama Canal, and this was effected with entire satisfaction, according to the report of the Canadian Trade Commissioner. Four thousand boxes were forwarded in this manner, received in excellent condition, and found a profitable market.

Judging is perhaps the most significant phase of Western Canadian farming at the present time, heralding a new era in the agriculture of the prairie. The number of dairies in Alberta is now 75, having increased to this number from 54 in 1922. In Saskatchewan there are 65 dairies and an approximately equal number in Manitoba. They have changed the face of the western landscape, interspersing features of dairy cattle with fields of wheat and oats, and adding in a substantial manner to the improvement of Western Canadian agriculture.

The theme of the chestnut is in the Mediterranean region, where chestnut trees have been cultivated from early times.

W. N. U. 1923

Briquetting Plant

Fate of Plant at Blenfaite to be Decided Very Soon

The fate of the lignite briquetting plant at Blenfaite, Sask., in which \$1,000,000 has been spent by the Federal Government and the Provincial Governments of Manitoba and Alberta, is to be decided within the next few weeks.

During his stay in Ottawa, Hon. J. G. Gardiner, minister of highways in the Saskatchewan Government, had a conference with Hon. Charles Stewart, minister of interior, with a view to discussing the future of this investment. It was announced after the conference that nothing had been agreed upon, but that a policy would be announced in the immediate future. Manitoba was concerned in the proposition to the extent of \$250,000 during 1923. However, the Manitoba Government withdrew from the scheme on grounds of economy, and since that time the research work has been carried to a successful conclusion by the other two governments.

Natural Resources Bulletin

Immense Amount of Lumber Used for Commercial Purposes

The Natural Resources Intelligence Service of the Department of the Interior at Ottawa says:

Lumber and pulpwood have for years been looked upon as the chief products of our forests, with the result that little attention has been given to the smaller and yet very essential products. Canada's forested areas are represented in so many articles of use that it would be useless to try to enumerate them, but a few outstanding ones may be mentioned.

British Columbia estimates that this year 6,000,000 fruit boxes will be required to provide for the province's apple crop.

Nova Scotia uses over 1,500,000 barrels each year to ship apples, the barrels averaging about 15 staves each. One Nova Scotia plant last year had a contract for 10,000,000 staves.

It requires 12,000,000 new ties each year to supply the Canadian railways for upknee alone.

Telephone and telegraph companies use one million poles each year.

The coal mines of Nova Scotia use one million trees, or 25,000,000 lineal feet of timber, each year for mine props.

There were over 12,000,000 boxes and packing cases made in 1922, also nearly 2,000,000 cheese and butter boxes.

The forests, after supplying all this material, will continue to do so from normal growth, provided they are protected from fire. Forest fires are destroying more timber annually than is used for commercial purposes. Save the forest and save the wood-using industries.

Many German Settlers

Steady Increase is Shown in Arrivals From Germany

Steady increase in the immigration of Germans to Canada is shown in a return tabled in the house. In 1922, 1,258 Germans came to Canada, of whom 791 were agriculturalists. In complete figures for the first two months of 1923 show 521 Germans settling in Canada, of whom 219 were agriculturalists.

Canada's immigration agencies in Great Britain employ 125 people at a total annual payroll of \$425,572, according to figures given in the house. In Continental Europe there are 23 immigration agents, whose payroll is \$18,615, and in the United States there are 51 at an annual cost of \$99,171.

Fur Market at Edmonton

More than \$2,000,000 worth of raw furs are received in Edmonton annually, and a fur exchange will be established at Edmonton. It is expected that this institution will give a useful impetus to this important Alberta industry.

Labor and Education

Giving Children of the Rich and Poor An Equal Chance

Mr. Trevelyan, minister of education in the Macdonald Government, in an article in the Labor Magazine, declares that his first object has been to bring to an end the campaign of economy in educational expenditures based upon the recommendations of the Geddes committee. He refers to these as "narrow and soulless economies." Mr. Trevelyan has no sympathy with the suggestion that there is too much advanced education for young people not fitted to receive it.

"We have before our minds as our objective advanced education for all people. We refuse to think only of the clever boys and girls. Who, indeed, can tell which the clever ones are at twelve years old?"

"All normal children of the working and lower middle classes ought to have precisely the same chance of full education as the normal child of the wealthy has today. We don't ask whether the son of a country gentleman is clever before we give him the chance of being educated in a public school, nor ought that question to be asked of other children."

Hatching With the Incubator

Intelligent Handling is Needed to Secure Best Results

When using an incubator for the first time, one is fortunate if a high percentage hatch is secured, as experience is needed to be able to follow even the clearest directions in work of this sort. Exhibition Crops No. 2 of the Experimental Farms, recommends a well ventilated cellar with a fairly even temperature as a good location for the machine. In any case, fresh air is necessary, but draughts should be avoided. It is also important, if one has not a suitable cellar, that the machine should stand on a floor that does not vibrate when walked upon. To get satisfactory results it is necessary to have the conditions right in relation to heat, moisture, cooling, turning and testing. The circular to which reference is made, "Artificial Incubation," and obtainable from the Publications Branch, deals with these points and shows by illustrations and contrast pictures, suitable and unsuitable types of eggs for hatching. An essential point brought out is that the eggs for hatching should be secured from vigorous well-bred stock. With such eggs a modern incubator should be depended upon, if properly handled, to yield a good proportion of chicks from the eggs entrusted to it.

The increasing cost of fuel has led to the development of a heating stove that will burn sawdust.

Knitted Apparel

The knitted suit is always acceptable for walking or sports wear. Shown here is one in cinnamon.

Prairie Fisheries

Total Value of Catch for 1923 Given As \$1,745,075

The total value of the commercial catch of fishes of the prairie provinces for 1923 was \$1,745,075, comprising \$1,026,555 for Manitoba; \$288,612 for Saskatchewan; and \$429,908 for Alberta.

All of the provinces show increased value of production, the total increase over the previous year amounting to \$260,635, or 17 per cent. Of the total value of production, white fish contributed 42 per cent; pickerel, 29 per cent; pike, 7 per cent; and tullibee, 6 per cent.

The fisheries of the Yukon Territory in 1923 had a value of \$11,917, an increase over the previous year.

The name "peko" of orange pecko tea is derived from the Chinese words "Puh lo" which mean "white hair," and refers to the small white pieces in this tea which look like stems, but are the finest parts of the leaf.

Solving The Problems Of Intending Settlers In Canada Who Have But Little Capital

Supplanting Jap Goods

British and Germans Are Making Inroads in China

British and German goods are supplanting the products of Japanese industry in the Chinese market.

The German exceeds the Japanese in cheap lines, while the British do so in goods of superior quality. In cotton yarns, for instance, Chinese goods cost about equal the wages in big size stuffs, while in fine twines the British are supreme.

Chinese are able to produce at much less cost than Japanese. Labor in China is very cheap. The average wage rate for a full-grown male laborer is 20 sen, for a female 25 sen, and a child draws 15 sen. In spite of such ludicrously low remuneration, they can develop at least 60 per cent of the efficiency of Japanese labor.

China's disadvantage lies in the high rate of interest which is due to the scarcity of available capital, which makes speculation in some raw materials out of the question.

Japan is much concerned over the possibilities of the Chinese market. In spite of her political troubles, Chinese business and industry continue to expand. With political conditions in order there will be even greater development.

Alberta Telephones

Provincial Government Telephone System Has Wide Ramifications

A total of 963 communities in Alberta are now served by the Provincial Government telephone system. In addition, connections have been made with 455 offices in the province of Saskatchewan, 259 offices in Manitoba, 78 in the Western States, and 22 in British Columbia. The total number of phones served by the system is now 67,279, of which 32,250 are exchange phones, 20,252 are rural phones and 1,085 are private party lines, and 1,233 are connecting subscribers. There are 261 exchanges in the province, with 204 toll offices and 62 private party lines.

It has been figured out that a garden plot, approximately 40 feet square, will furnish ample exercise for one family, three cats, an Alreidae, and 21 strange chickens.

Stung!

In Algebra class—"What does 'plus' plus 'plus' equal?" Student—"A live!"

Bright Waters and Happy Lands

Scenes on the beautiful "Kawartha" Lakes, in the heart of Ontario's finest "Playground." Inset: A record "Musky," taken from Pigeon Lake

In Indiana parlance, "Kawartha" means "Bright Waters and Happy Lands," and such they are. The Kawartha lakes of today comprise fourteen beautiful stretches of water which straggle over some hundred and fifty miles and constitute one of the most popular of Ontario's summer playgrounds. One enters the "Happy Lands" at either Peterborough, Peterborough or Lindsay. The best named is the most convenient point for tours on Lake Simcoe and lower Lake Huron, but the others possibly give

the sportsman or holiday maker a wider field. It would, indeed, be hard to find a more "all round" district. There is exceptionally good bass and "junge" fishing at almost every point, and while the lakes are usually deep, there are numerous shallow sandy beaches adapted for bathing. The scenic beauty of this country is almost unexpressed and innumerable launch and motor trips light the holiday maker.

The enclosed photograph gives the reader a little idea of the productivity of the waters. This "Musky" was caught last year by Mrs. W. R. Deemer, of Trenton, P.A., in Pigeon Lake, one of the chain. The fish weighed over 27 pounds, was 51 inches long and 18 inches in girth. Mrs. Deemer declined to be photographed, but Dr. W. R. Deemer, who is also a veteran fisher in Kawartha Lakes, states that his wife landed the monster bass after two or three miles of fierce fighting. As this is not an unusual catch it is not hard to understand the meaning of "Bright Waters."

The land settlement branch of the Immigration department was recently organized, to direct new settlers to lands where they have the best chance of success, to safeguard them from exploitation in the purchase price of lands and to facilitate the placing of immigrants of both sexes in farm employment.

The statement of the minister of Immigration says that the interest of the land settlement branch will not terminate when the settler is satisfactorily located, but the branch will continue to exercise friendly assistance as long as it is needed. It is particularly emphasized that the scope of the branch extends to all Canada, not merely to Western Canada.

One peculiar problem confronting the land settlement branch is the disposition of settlers so that they may have the benefit of community life with people of their own tongue and race and yet to diffuse European settlers in such a way as to secure their absorption into Canadian life and their understanding of the Canadian people.

The branch is listing lands available for sale and advisory settlement boards are being formed in many districts to pass on the suitability of the lands and assist the department in fixing a fair price for them. These boards also will promote community welfare work, trying to prevent the oversteering of any territorial district and to provide a helpful medium for settlers.

"Through the branch's field staff special impetus will be given to community welfare organization," says Mr. Robb's statement, "and every endeavor will be made to extend to the new land settlers the most friendly welcome, but practical guidance in initial operations to overcome the inevitable difficulties awaiting the newcomer. This guidance and direction will be continued so long as it is found necessary. It is to be a real service organization, permeated with a desire to assist the incoming settler and to make him, as speedily as possible, into a prosperous Canadian citizen. Permanency of settlement of the immigrant is the keystone of the policy."

The land settlement branch recently formed will be a new factor in the solution of farm employment problems. The branch will make a survey of farm labor requirements and seek to meet these by placing immigrants as well as directing the settlement of immigrants who wish to take up their own farms on arrival.

Field officers of the land settlement branch will seek to place to the best advantage all immigrant laborers, and an immediate result of faithful surveys by the branch is that it has more applications from Canadian farmers for laborers than it is able to present to supply.

The branch will see particularly to placing advantageously those who come to Canada under the nominated passage scheme. A considerable movement of Britishers to Canadian farms is anticipated within the next six weeks. There is also in evidence a considerable immigration from the Irish Free State, which will share in the reduced rates arranged for them from Great Britain and Ireland to Canada. The Irish Free State, however, being a separate country within the British Empire and not affiliated with the British Government in the financial arrangements for carrying on the British-Canadian nominated passage scheme, does not come within the provision of the nominated passage.

It All Depends

The teacher had been trying to inculcate the principles of the Golden Rule and turn-the-other cheek.

"Now, Tommy," she asked, "what would you do supposing a boy struck you?"

"How big a boy are you supposing?" demanded Tommy—American Legion Weekly.

SAYS PRESSING NEED OF CANADA IS IMMIGRANTS

Windsor, Ont.—Canada can, without any danger, absorb between 300,000 and 500,000 newcomers yearly, and steps should be taken immediately by the Dominion Government to secure settlers of a desirable type, E. W. Beatty, president of the Canadian Pacific Railway, told the Board of Trade here.

Among other proposals made by Mr. Beatty was one that the Dominion Government float a \$10,000,000 bond issue to be used in assisting settlers to go on the land. He strongly urged the government to co-operate with provincial bodies and semi-public bodies toward filling up the vacant lands in Canada. The government should forthwith put on a vigorous advertising campaign to attract settlers and capital to Canada, he said.

The country is suffering from too great railway mileage and too great overhead, Mr. Beatty continued. It was the same way with a number of manufacturers. There was a heart-felt demand for national economy, and much might be expected from a policy which would spread the burden of taxation over more shoulders. The sooner the unemployed farm lands of the west were populated the easier it would be for the taxpayers of Ontario cities.

New Lignite Board Headquarters

Will Be Located In Regina, With T. M. Molloy As Chairman

Regina—The Lignite Utilization Board of Canada, with Thomas M. Molloy as its chairman, will have its headquarters in Regina hereafter.

Mr. Molloy's appointment to the board, with that of Dr. Charles Cansell, deputy minister of mines, Ottawa, was the subject of a press dispatch from the capital received here. Mr. Molloy and Dr. Cansell now constitute the board, replacing the old board whose members resigned some 10 days ago. This latter consisted of Dr. A. A. Ross, Montreal, chairman; J. N. Leamy, Winnipeg; and J. A. Sheppard, Moose Jaw. From John Drackon, Premier of Manitoba, has recently been in Ottawa in consultation with the minister of mines respecting the future policy of the Manitoba Government in respect to lignite utilization and whether that province, which recently withdrew from the lignite enterprise at Brandon, Sask., will again associate itself with it and be represented on the board as now constituted. What the position of Manitoba in the matter now is as a result of these negotiations is still unknown here and on this depends much of the policy of the new board.

Prospectors Are Missing

Believe Men Buried Under Slide in Windermere District

Nelson, B.C.—R. V. Wahl and Emil Metzner, of Skokuchuck, are believed to lie under a slide at Copper Lake in the Windermere district. When they failed to come out on April 1, a friend investigated, to find a slide between their cabin and tunnel. They dined up in November and from the small amount of work done in the tunnel, it is believed they were buried in January.

Rewards Life Saver

Toronto—Echoes of the German steamer Hammonia wreck in the Bay of Biscay on September 9, 1922, were heard when Mayor Hiltz in behalf of the German Government, presented an iron plaque and certificate to J. Bohan, of Toronto, for having assisted in saving the lives of 365 of the passengers and crew on that occasion.

Admission Confirmed

Ottawa—Confirmation of the cablegram received in Winnipeg to the effect that the Glasgow market is now open to Canadian stock cattle, was received by the Dominion Livestock Branch here. The market has been closed for several months owing to the foot and mouth disease.

Rheumatism.

Minard's penetrates to the root of the trouble and eases pain. The universal remedy.

Plans To Assist Settlers

E. W. BEATTY, President of the C.P.R.

Britain Willing To Discuss Disarmament

Premier Says General Conference of Powers Is Desirable

London—Prime Minister MacDonald, responding to a speech in the Commons by Major-General J. E. Seely, former president of the Air Council, who advocated that the Premier call an international conference for disarmament, declared he would welcome an invitation by any other power to take up the whole question of armaments.

The Prime Minister, while emphasizing that a general conference on armament was desirable, declared it was of "greatest" importance that there be no reason for misunderstanding between Great Britain and France.

"It is most important that that should be so," he said. His statement on British relations with France was coupled with a reference to "this unfortunate air race that has already begun."

Sapiro Will Give Testimony

To Appear Before Royal Grain Inquiry

On April 28, Winnipeg—Eugene Sapiro, co-operative pool marketing expert, will positively appear before the Royal Grain Inquiry Commission, Monday, April 28, to be examined on the methods of operating his long-term contract wheat pool, according to a wire received by the commission from Mr. Sapiro in Chicago.

The telegram reads: "Have made arrangements to be in Winnipeg on April 28. Will report at Port Garry hearing room of commission at 10 o'clock, or such other hour as you designate on that date. Please advise if satisfactory." (Signed) Aaron Sapiro.

The commission viewed the date mentioned would be satisfactory.

ASPIRIN

Beware of Imitations!

Unless you see the "Bayer Cross" on package or on tablets you are not getting the genuine Bayer Aspirin proved safe by millions and prescribed by physicians over twenty-three years for Colds, Headache, Toothache, Lumbago, Neuritis, Rheumatism, Neuralgia, Pain, Pains.

Accept "Bayer Tablets of Aspirin" only. Each unbroken package contains proven directions. Handy boxes of twelve tablets cost few cents. Drugists also sell bottles of 24 and 100. Aspirin is the trade mark registered in Canada of Bayer Manufacturing of Monroeville, Pa. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Prisoner Starved To Death
The Hague—A case which strikingly illustrates the influence of arrests in some parts of Holland is reported. A man arrested about the end of March, in a little town near Utrecht, has just been found dead of starvation in his cell, the authorities having forgotten that they had a prisoner.

Berlin Loses Population
Berlin—At the beginning of 1924, Berlin had a population of 4,004,000, according to official statistics. This is 15,000 less than a year ago.

Corporal Punishment In the British Navy

London—Whipping of boys in the navy with a birch, for disciplinary purposes, will not be abolished, declared Charles Ammon, Parliamentary Secretary of the Admiralty, in reply to a question in the House of Commons. Such punishment is inflicted by court martial for certain serious offences. When he went to the Admiralty, Secretary Ammon said, he made enquiries on the matter but he found there had only been six cases since 1917 of offences at all serious. Most of the flogged boys "made good," whereas in previous cases of imprisonment for offences the boys had "gone bad."

Heavy Stocks of Grain

Quantity of Grain in Canada, Except Rye, Is Greater Than Last Year
Ottawa—On March 31, 1924, the quantity of wheat in Canada was 202,439,000 bushels, as compared with 129,745,000 bushels in 1922, according to returns received by the Federal Bureau of Statistics. The following are the totals for coarse grains and flax.

Oats, 283,516,000 bushels, compared with 191,718,000 bushels in 1922.
Barley, 30,119,000 as compared with 25,429,000.
Rye, 8,525,000 as compared with 9,835,000.
Flax, 4,826,000 as compared with 1,742,000.
For all these grains excepting rye, the quantity at the end of the March, 1924, is greater than that of a year ago.

JAPAN HOTLY RESENTS THE U.S. EXCLUSION ACT

Tokio.—The Yozuru Choko representing the Jingu, declares editorially that the action of the United States Congress in passing the exclusion legislation amounts to a challenge to Japan. It says the nation must prepare for whatever may come, even war.

The Kokumun demands the immediate resignation of the ministry. Numerous public bodies, including the Associated Chambers of Commerce in Japan, the American Japan Society, and the Japan Economic Society have called urgent meetings to discuss the immigration situation.

Officials do not deny the probabilities of unpleasant popular reactions, and it is fully expected that the opposition will make all possible political capital from the government's immigration deficit. The action of Congress comes as a blow in the heat of an election campaign throughout Japan.

Inflammatory campaign speeches, public indignation meetings, resolutions and bitter editorials, are all expected as an aftermath of Washington's exclusion legislation.

The government, however, is determined to take a vigorous stand against any policy of retaliation. It asserts it will do its utmost to curb popular indignation and maintain the fullest possible friendly relations with the United States.

Washington.—The Senate put itself formally on record on the question of Japanese exclusion by re-adopting the Shortridge exclusion amendment to the immigration bill 74 to 4.

Group Settlement

British Settlers to Be Located on C.N.R. Lands in Groups of Twenty Families

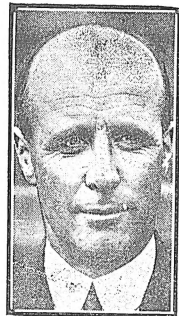

Ottawa—British settlers are to be located on lands owned by the Canadian National Railways in groups of 20 families, under an arrangement entered into by the railway and the Overseas Settlement Committee of the colonial office, under the British Empire Settlement Act. It was stated in the House of Commons.

The Canadian National undertakes to have advanced an amount not to exceed £300 to enable the settler to purchase stock and equipment, and the British secretary of state guarantees payment of the full amount of any loss incurred through such advances, but the total guarantee will not exceed 50 per cent. of the total amount advanced to all settlers.

No Assize Docket at Saskatoon
Saskatoon, Sask.—When the spring assizes opened here, Chief Justice J. T. Brown, slated to preside over the court, found not a single case, either criminal or civil, docketed.

Sanatorium for Saskatoon
Saskatoon.—Construction work on the \$184,000 provincial tuberculosis sanatorium to be completed here this year was begun this week.

Macmillan Party Safe

DONALD B. MACMILLAN

whose party, Incubated in the Dowdell north of Greenland, is still safe, according to a radio message which has been picked up.

Exports Only Temporary

Trail Smelter Can Handle All Ores Says Mining Official

Nelson, B.C.—Commenting on the phase of the coast agitation for a smelter based on the supposition that Trail Smelter has about reached its limit, an official of the Consolidated Mining and Smelting Company of Canada made the statement that the export of zinc concentrates and of lead bullion from the Trail Smelter to Europe is only temporary, and is strictly pending the completion of the power extension at Bonington being made by the West Kootenay Power and Light Company, the Trail corporation's subsidiary. There is no thought of shutting off the handling of customs ore and concentrates.

Russia Taking Her Time

Will Not Enter into Hurred Agreement With Britain

Moscow.—Russia will not be hurried into any agreement with Great Britain on the ground that the MacDonald Government might fall during prolonged negotiations, declared M. Zinoviev, chairman of the executive committee of the Third Internationale, speaking on behalf of that body. "Substantial interest will be paid for substantial credits," said Zinoviev, "but Russia is not going to pay England a half million pounds because she considers England owes Russia more than this."

CORNS

Lift Off—No Pain!

"Doesn't hurt one bit! Drop a little 'Freezone' on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Your drugstore sells a tiny bottle of 'Freezone' for a few cents, sufficient to remove every hard corn, soft corn or corn between the toes, and the foot callouses, without soreness or irritation."

To Popularize Frozen Meat

Paris.—Another attempt is in the making to induce Paris to eat refrigerated meat. Under orders from the prefecture, 142 stalls in the Paris open markets have been set aside for the sale of such meats. They will be held by individuals, co-operative societies and importers and dealers. The prices will be from 30 to 40 per cent. under those for fresh meat.

Liver and Bowels Right—Always Feel Fine

There's one right way to speedily tone up the liver and keep the bowels regular. Carter's Little Liver Pills never fail. Millions will testify that there is nothing so good for biliousness, indigestion, headache or salivary, pimply skin. Purely vegetable. Small Pill—Small Dose—Small Price.

Canada Is In Need Of More Publicity

Montreal.—"There is nothing the matter with Canada. What Canada really needs is a lot of publicity," said Lord Rothermere, well-known newspaper proprietor, in summarizing his experience during his brief stay in the Dominion. He added: "I am seriously considering, on my return to England, placing three or four 'star' newspapermen on the job of telling England something about Canada."

Japan Accepts Convention Rule

Will Send Emigration and Immigration Statistics to Labor Office

Geneva.—Japan has notified the League of Nations that Japan will abide by the decision of the fourth International Labor Convention, asking all nations to send emigration and immigration statistics to the International Labor Office.

The notification, however, makes reservations as to special accord to be concluded between states which are members of the league. The exact purpose of the reservation statement is not understood in league circles here.

Earthquake Disturbances

Earth Tremors Reported From Many Points Believed to Be Submarine

London.—The reports from widely separated parts of the world of a great earthquake have received no elucidation here, but in the absence of definite news as to the locality or localities affected it is assumed that the phenomenon was submarine.

There were local shocks in Switzerland and Italy, but no serious damage was reported. There has been no recurrence in England of the tremors of April 5 and April 8. London itself is outside the area which occasionally feels slight shocks. These disturbances usually occur in the North Midland and eastern counties.

GERMANY HAS ACCEPTED THE EXPERTS' REPORT

Paris.—The German Government has accepted the experts' reports as a practical basis for a solution of the reparations problem. The reply of the German Government was handed to the reparations commission and there was much enthusiasm at reparations headquarters when it became known that Germany would collaborate with the commission in the settlement of this most difficult problem on the basis set forth by the experts.

France, Great Britain, Belgium and Germany now have announced their acceptance of the experts' reports and Italy's acceptance is expected soon.

Already there appears to be a distinction, if not a difference, between the interpretation of the German reply by the reparations commission and the German delegation. The latter says the acceptance means that negotiations will be necessary in which Germany will have an equal footing with the others. The British prime minister's acceptance is regarded here as virtually unconditional, while Premier Poincare's reference to the report needing touching up is held to be a forerunner of various reservations.

The differences do not appear to be such that they cannot be overcome and optimism is increased by the fact that a "speedy solution" is the keynote of the various acceptances. The German reply to the reparations commission's communication is regarded in reparations commission circles as a real bona fide acceptance of the report as a basis for settlement of the reparations question and going fully as far as the commission expected.

B.C. Lumber For Britain

Victoria, B.C.—F. C. Wade, agent-general in London for British Columbia, will be asked to support a plan of the Victoria Chamber of Commerce to secure for British Columbia a share of the business offered by the contemplated building of 2,500,000 homes in the British Isles. The chamber aims to advance the claims of British Columbia lumber.

Women May Preach

Montreal.—The Presbytery of Montreal unanimously passed a resolution favoring the ordination of women to all positions in the church on the same conditions as men.

South Africa exports ostrich feathers to the value of between \$2,000,000 and \$2,500,000 annually.

SOVIET TRADE DELEGATES BRING RED LITERATURE

Ottawa, Ont.—The Soviet trade delegation which came recently to Ottawa to secure government recognition in its mission for the development of trade between Canada and Russia were back here on a somewhat different errand. They were asked to do some explaining.

It appears that customs authorities going through cases of books addressed to the delegation and which supposedly were to be presented to private libraries, have discovered a very large proportion of Bolshevik propaganda literature.

Some of it is an attack upon Christ and the "Christian religion." Other parts of the literature are in derision of the monarchist or even republican forms of government and of the countries where such exist, and in eulogy of communism. These who have seen the sample declared them to be a peculiarly lurid "Red."

A part of the delegation was held before some high authorities here and asked to explain the importation of such quantities of questionable matter. The explanation, it is understood, was that it was for private libraries, and in fact, some of the works were text books on Russian geography and the like which might be acceptable for such a purpose. The explanation does not so satisfactorily cover the other literature, and especially flaming posters in propaganda of the Bolshevism, and authorities are now engaged in conducting a further investigation.

It is said that the delegation has been in touch with a sympathetic element in Winnipeg and other cities and generally their activities are being checked up.

While there is a willingness to trade with Russia, if they have the money—and it does not appear to be prolific—it is being made clear here, as it was to a similar delegation by Premier Ramsay MacDonald in England, that the dissemination of Bolshevik propaganda is not to be carried on under any camouflage of trade expansion or otherwise.

U.S. Immigration Quota

Washington.—Two per cent, upon the basis of the 1890 census, was approved by the Senate as the plan for the quota computation under the new immigration bill. The same provisions are in the bill passed by the House last week.

The census of 1890 was adopted, 47 to 32, and the two per cent. quota, by a substantial majority, but without a record vote.

Second Free State Loan

London.—A second loan will be necessary to balance the 1924 accounts of the Irish Free State Government, says the Morning Post's Dublin correspondent. The loan, he adds, will be floated in the United States probably about mid-summer.

Will Recognize Greek Republic

Paris.—The French Government has sent instructions to its Minister in Athens to extend recognition to the Greek Republic as soon as he is officially notified that it has been established.

Turks Ratify German Pact

Constantinople.—The Grand National Assembly at Angora has unanimously ratified the treaty of friendship between Turkey and Germany.

Cleanses mouth and teeth and aids digestion. Relieves that over-eaten feeling and acid mouth.

It's a 2-4-1-a-g-gav satisfies the craving for sweets.

Always have Mustard on the table

It's not just custom that makes people take mustard with their meat. Mustard aids digestion and helps to assimilate the meats. It is a good habit to acquire. Mix it freshly for every meal.

but it must be Keen's

Plenty Of Newspaper

The Supply is Assured, But the Prices Do Not Weaken

"There is absolutely nothing in the newspaper situation, either in Canada or in the United States," to support the pessimistic statements originating in certain quarters and widely circulated through the press to the effect that a break in the newspaper market is imminent," said Edward Beck, secretary of the Canadian Pulp and Paper Association, speaking at a luncheon treat. "The industry is in a perfectly healthy condition," Mr. Beck added, "and while Canadian production for the first quarter of the year shows an increase as compared with the corresponding period of last year, shipments have kept pace with increased production."

Mr. Beck concluded: "No Canadian manufacturer of newspaper, as far as I am aware, has reduced his contract price or is contemplating doing so, nor is there any reason to anticipate such a development in the near or remote future."

Pain In The Muscles, Stiffness In Joints, Quickly Subdued By Nerviline

Those who have tested out numerous liniments will agree that where something is needed to dislodge a deep-seated, more or less chronic condition, there is nothing to compare with Nerviline. It's because Nerviline penetrates so deeply, because it has about five times the strength of the ordinary oil preparation, it has come to be known as King over all Pain. For Rheumatic conditions, muscular and joint stiffness, Nerviline works wonders. A trial proves this. Get a 35 cent bottle from your dealer today.

Why Men Get Bald
She—"Is my hat on straight, Henry?"
Henry—"Quite straight, my dear. Now, do hurry—we're late already."
She—"Well, I shall have to go back, then—this isn't the sort of hat that is worn straight."

LOWERED VITALITY

A Condition Following Indoor Confinement Of Winter

There are very few people who do not need a tonic at this season of the year. The reason for this is that whether in the home, the office or the factory, people have been living throughout the long winter months in an atmosphere more or less vitiated, and as a result find their vitality and their summer-time health, through the long months of winter year, has been growing thin and poor. Closer confinement and lack of exercise have used it up and exhausted it. You are not as energetic as you could wish. Your work tires you and perhaps your digestion is none too good. Your nerves may be shaky and your appetite poor. All these things point to poverty of the blood. It is a scientific fact that if the blood of the strongest is tested in the spring there is less of it and it is poorer than it was in September. The spring medicines of our grandmothers—sulfur and molasses, salts and the like—recognized the necessity for aid at this season, but were an unscientific attempt to cleanse the blood. Modern medical science has found a better way. Dr. Williams' Pink Pills make new, rich blood at the first dose and at every dose afterwards, because they strengthen every organ of the body and give new vitality to the faded system. Here is proof. Miss Clara Cheslock, High Falls, Que., says: "I was in a much run-down condition and my blood was thin and poor. I took Dr. Williams' Pink Pills, and I must thank you for the good they did me. I never enjoyed better health than I have since I took them. You can get these pills through any dealer in medicine, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont."

Alpha Centauri, the nearest star to the earth, is 25,000,000,000,000 miles away.

CHILDREN CRY FOR "CASTORIA"

Especially Prepared for Infants and Children of All Ages

Mother, Fletcher's Castoria has been in use for over 30 years as a pleasant, harmless substitute for Castor Oil, Purgative, Teething Drops and Soothing Syrup for Infants and Children. Proven directions are on each package. Physicians every-

where recommend it. The kind you have always bought bears signature of Dr. H. H. Fletcher.

Dr. H. H. Fletcher.

WORLD HAPPENINGS BRIEFLY TOLD

Lady Pellatt, wife of Sir Henry M. Pellatt, well known financial man, died at her home in Toronto after a sudden heart attack.

J. M. Donohue, London, Ont., lawyer, has written the Minister of Justice asking that the criminal code be drastically amended to permit capital punishment for bank wreckers.

An ever increasing number of divorce applications before the Manitoba courts will result in stricter enforcement of all the rules surrounding divorce proceedings, according to Mr. Justice Curran.

The sum of \$26,000 has been sent by the Canadian National Railway management on the installation of radio equipment to date. The estimated cost of operation of the radio department for the present fiscal year is \$90,000.

Several oil companies are already making overtures to the Chinese Government regarding concessions in Turkestan. It is reported in dispatches from Shanghai. English and Japanese concerns will send surveying missions to Turkestan this spring.

The Italian airship No. 1, moored at the airfield at Ciampino, near Rome, was carried away by a violent gust of wind and two soldiers and a mechanic who were unable to let go of the mooring ropes, were carried 300 feet and dashed to death.

Women Can Dye Any Garment, Drapery
Dye or Tint Worn, Faded Things New for 15 Cents

Diamond Dyes

Don't wonder whether you can dye or tint successfully, because perfect home dyeing is guaranteed with "Diamond Dyes" even if you have never dyed before. Druggists have all colors. Directions in each package.

Another Use For X-Rays

Will Expose False Representations of Famous Paintings
Fraudulent representations of paintings by the museum can be detected by turning ultra-violet light rays on the art objects, according to members of the faculty of the art department in the University of California. Experiments along this line are being made at the university.

"Fraudulent ultra-violet rays the brush strokes show plainly," said a professor, "and if photographs are made while the lights are turned on the canvases, the kinds of color used also are shown, and when these are compared with the kinds known to have been used by the artist supposed to have painted the picture, any fraud can be detected. The Germans have used the same system in criminology for a number of years, and this is simply applying the process to painting. It is inevitable that it will come into general use."

Asthma Cannot Last when the greatest of all asthma specific is used.
Dr. J. D. Kolloger's Asthma Remedy assuredly deserves this exalted title. It has to its credit thousands of cases which other preparations failed to benefit. It brings help to even the most severe cases and brings the patient to a condition of blessed relief. Surely suffering from asthma is needless when a remedy like this is so easily secured.

Trick And Artifice
A French scientist is making a wood more firm and beautiful than oak or mahogany by mixing certain sawdusts, chalk and cheap chemicals together and subjecting them to high pressure. The product can be made to take a high polish and is virtually fireproof. We get sawdust in making lumber and then we make lumber from sawdust, but how long can this thing keep up? There must be a catch in it somewhere.—Los Angeles Times.

Northern Lights Mostly Nitrogen
Protracted researches into the nature of the Aurora Borealis known as the "Northern Lights," lead Professor Vegard of Christiania University to believe that its essential character is nitrogen, and say that the green line which is the chief feature of it consists of small particles of frozen nitrogen in the highest part of the atmosphere. "This line appears when frozen nitrogen is exposed to electric rays."

You never can tell. The fellow who goes out of his way to put you into a good thing will generally bear watching.

Sugar cane was first cultivated in the United States about the year 1751.

Minard's Liniment Relieves Colds
W. N. U. 1521

This way clever women resist the years

The simplest beauty secret known—but the most effective

Every day you see women well along in years, who still retain the charm of youthfulness, lovely skin. They are not unusually fortunate—just clever enough to resist the years!

They know and follow a simple method, which you may employ as successfully as they do. This tells you how.

Authorities advise this
Cleanse the skin regularly, au-

thorities say, to keep your complexion lovely, radiant, youthful. But beware of harsh cleansing methods. They injure skin.

Wash thoroughly with Palmolive Soap—each night before retiring. Rub the creamy, foamy lather well into the tiny pores. Rinse—And repeat the washing. Then rinse again.

Then—"The skin is dry—apply a little cold cream. That is all. Skin so cared for is not injured by cosmetics, by wind and sun, or by dirt.

A Severe Attack Of Heart Trouble Was Relieved By MILBURN'S Heart and Nerve Pills

Mr. S. E. Barnes, Athens, Ont., writes:—"Four years ago I had a very severe attack of heart trouble. I consulted my doctor; he treated me for some time, but I only seemed to be getting worse. I finally went to our druggist and purchased three boxes of Milburn's Heart and Nerve Pills and derived immediate relief from their use, and I can truthfully say they are a wonderful medicine. I always keep a box on hand, and if I feel out of sorts I take a few pills and feel right again."

Length of "Don Quixote"
One of the earliest of still popular novels, "Don Quixote," is also one of the longest; it is estimated to contain 461,000 words. Begun in prison, the first part was published in 1605, and the second ten years later.

Each person in the U.S. would have \$153 if the total deposits in the savings departments of banks and trust companies were divided equally among the entire population.

MRS. HARVEY DISHAM

THE APPEALING CHARM OF HEALTH AND BEAUTY!

London, Ont.—Dr. Pierce's Favorite Prescription proved very beneficial to Mrs. Pierce, in tablet or liquid form; or send her to Dr. Pierce's Laboratory in Bridgeport, Ont., for a trial pill, tablet, or bottle. Dr. Pierce, President, Lyndale Hotel, Buffalo, N. Y., if you want from medical advice.

Every day you see women well along in years, who still retain the charm of youthfulness, lovely skin. They are not unusually fortunate—just clever enough to resist the years!

They know and follow a simple method, which you may employ as successfully as they do. This tells you how.

Authorities advise this
Cleanse the skin regularly, au-

thorities say, to keep your complexion lovely, radiant, youthful. But beware of harsh cleansing methods. They injure skin.

Wash thoroughly with Palmolive Soap—each night before retiring. Rub the creamy, foamy lather well into the tiny pores. Rinse—And repeat the washing. Then rinse again.

Then—"The skin is dry—apply a little cold cream. That is all. Skin so cared for is not injured by cosmetics, by wind and sun, or by dirt.

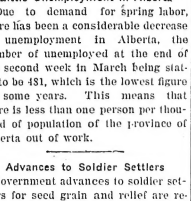

A Severe Attack Of Heart Trouble Was Relieved By MILBURN'S Heart and Nerve Pills

Mr. S. E. Barnes, Athens, Ont., writes:—"Four years ago I had a very severe attack of heart trouble. I consulted my doctor; he treated me for some time, but I only seemed to be getting worse. I finally went to our druggist and purchased three boxes of Milburn's Heart and Nerve Pills and derived immediate relief from their use, and I can truthfully say they are a wonderful medicine. I always keep a box on hand, and if I feel out of sorts I take a few pills and feel right again."

Length of "Don Quixote"
One of the earliest of still popular novels, "Don Quixote," is also one of the longest; it is estimated to contain 461,000 words. Begun in prison, the first part was published in 1605, and the second ten years later.

Each person in the U.S. would have \$153 if the total deposits in the savings departments of banks and trust companies were divided equally among the entire population.

MRS. HARVEY DISHAM

THE APPEALING CHARM OF HEALTH AND BEAUTY!

London, Ont.—Dr. Pierce's Favorite Prescription proved very beneficial to Mrs. Pierce, in tablet or liquid form; or send her to Dr. Pierce's Laboratory in Bridgeport, Ont., for a trial pill, tablet, or bottle. Dr. Pierce, President, Lyndale Hotel, Buffalo, N. Y., if you want from medical advice.

The simple, correct way
You cannot find a more effective beauty treatment. Because Palmolive Soap is blended of rare palm and olive oils—famous for mild but thorough cleansing qualities since the days of Cleopatra. And it is inexpensive. Be sure you get Palmolive Soap—which is never sold unwrapped. All dealers have it. Then try this method. Watch the improvement in your skin. It is very economical. So let Palmolive do for your whole body what it does for the face.

THE PALMOLIVE COMPANY OF CANADA, LIMITED
Winnipeg Toronto Montreal
Palm and olive oils—nothing else—give Nature's green color to Palmolive soap.

Short Course in Hog Production

University of Saskatchewan Hold Short Course Attended by Many Swine Breeders

More than one hundred swine breeders have taken advantage of a special educational short course in bacon and hog production conducted by the University of Saskatchewan recently. Lectures and practical demonstrations on different phases of the industry were given. Judging competitions in which hogs were judged before and after being slaughtered was one of the features.

SUNDAY SCHOOL LESSON

APRIL 27
AMOS AND HOSEA PLEADING FOR RIGHTEOUSNESS

Golden Text—Hate the evil, and love the good. Amos 5:15.
Lesson—Books of Amos and Hosea. Devotional Reading—Isaiah 55:6-13.

The Text Explained and Illuminated
I. The False Confidence of Rulers. Amos 6:1-6. The men of wealth and power in Judah were "at ease in Zion"; luxury had lulled them into a feeling of false security. The reference is to Zedekiah, Jerusalem, has been a stumbling block to many, since Amos preached exclusively to the Northern Kingdom. Dr. A. S. Peake suggests that a slight change in the Hebrew gives this rendering, "Woe to them that are at ease in (their) pride," and to them that are secure in the mountains of Samaria," both expressions then referring to the rulers of Israel. "Their sense of security was not unusual. The nation was at peace, their own resources were abundant, and their God was manifestly favorable. The capital cities, both of Israel and Judah, were deemed, not without historical justification, to be impregnable. In point of fact, Samaria, the capital of the Northern Kingdom, kept the besieging Assyrian army at bay for three years before she finally met her doom which Amos had pronounced upon her thirty years or so before; and a century and a half afterwards it took the Babylonians eighteen months to effect the capture of Jerusalem. Splendidly situated, both these cities were defended by the surrounding mountains; and both imagined themselves to be further secured, beyond the possibility of menace, by the good will and the protecting power of their God. As a result, the confidence, which Amos derides, in the monument of Samaria, as so often happens, with this confidence went conceit" (McFadyen).

If your wife laughs at your joke you may be sure that it's either a good joke or you've got a good wife.

An Oil Without Alcohol—Some oils and many medicines for spring fever, there has been a considerable decrease in unemployment in Alberta, the number of unemployed at the end of the second week in March being stated to be 481, which is the lowest figure for some years. This means that there is less than one person per thousand of population of the province of Alberta out of work.

Advances to Soldier Settlers
Government advances to soldier settlers for seed grain and relief are revealed in answer to a question in the Ottawa house. They comprise \$1,862,513 for seed, \$100,215 for subsistence, \$66,729 for breaking, \$11,082 for clearing, and \$14,014 for draining. The board has spent \$29,050 on roads in soldier settlements.

Water Expensive In Budapest
Water has become more expensive than wine in Budapest because of the special water taxes imposed to increase the city's income. The Hungarian Government found the tax so burdensome it was forced to disband the Budapest city financial administration.

Minard's Liniment for Sprains

Costs Millions Yearly

Sand Used for Safety of Railways is Expensive

While big figures are used in telling the cost of safety to the railways, the amazing item to the average person is the amount spent for sand. Four tons are required for every mile of road in the United States, according to the figures of one trunk line with 7,500 miles of track. As this road is in the middle west and south, where mountains are not encountered, the figures given are regarded as conservative. The cost of putting the sand into the engine box is placed at \$2.50 a ton as an average minimum. For all the roads, the yearly cost is estimated at \$2,637,070. For the most part the sand is brought from river bottoms and dried by waste steam at the round house.—Popular Mechanics.

Revenge as contemplated may be sweet, but it is always more or less bitter when realized.

PILES
Do not suffer another day with itching, bleeding, or protruding piles. Dr. Chase's Ointment will relieve you at once and, when used regularly, cure a cure. A bottle, all dealers, or Dr. Chase's Ointment, 100c. Limited, 100c. per bottle. Send for free literature. Stamp to pay postage.

art, Gollholme, Chinook.

Letters to the Editor

Reply To Mr. F. Dumanowski

Dear Sir:

In reading your paper last week I was pleased to see that Mr. Dumanowski was interested in the School Fair. He has a very good idea, and as one of the School Fair committee I would not like to see it dropped. Therefore the committee is arranging to give a very substantial prize for the best article on the actual cost of raising vegetables in garden and the actual loss or gain to the grower. In regard to School Fairs being mere propaganda to encourage youngsters to take up agriculture I may say that that hardly deals justly with the school fairs. The cost of growing, the loss or the gain varies very greatly both with the seasons, the grower, the soil, the distance from large markets and the competition at the local market. An example might show what I mean. Last fall, some farmers of this district sold their turkeys for 12 cents lb. while others sold them for 25 cts lb. Similar conditions prevail in the marketing of vegetables. Moreover the vegetable growing and other work encouraged by the school fair is necessary to the sustenance of the farmer whether he sells these products or not. The school fair tries to encourage an interest in gardens in house work and many other lines. They want to encourage the children to do better work.

In the past the farmers of Al-
berta have suffered from their
failure to take their gardens into
serious consideration. By no
stretch of imagination can I see
where school fairs will lead chil-
dren into any form of slavery.

"INTERESTED."

Government Commissions

Editor, The Advance:—

Of late years, when ever the
people voice a protest against
some form of oppression, or un-
fair dealings, which tend to make
it more difficult for the average
man to make a living our govern-
ments have formed a habit of ap-
pointing a Commission to investi-
gate these conditions. These
Commissions have proved to be
very valuable (to the members of
the Commission) but I am curious
to know of what value they have
been to the public generally. Al-
most without an exception, we
fail to see any beneficial results,
and in many cases even the evil
complained of has been aggra-
vated. These Commissions are
very expensive. Take the present
Commission which is investigat-
ing the Grain Business. We read
that one of the members is re-
ceiving \$165 per day and another
\$115 when the Commission is sit-
ting and \$85 per day when it is
not sitting. For the other mem-
bers there is a graded scale down
to a mere pittance of \$25 per day.

The question arises, Who pays
for this? The answer is, that you
do my reader! Everyone of these
high priced Commissions is cost-
ing you some of your hard earned
dollars. The next question is
Are our government, both Fed-
eral and Provincial, managing the
business of our country as effi-
ciently and economically as they
should? My answer to that is,
investigate some of the salaries
paid and find what results are ob-
tained by the various employees,
and I promise you that you will
get your eyes opened. If each
one of us could only have an ade-
quate grasp of the real facts, we
would have such a protest raised
that it would compel a great
change for the better in the run-
ning of our governments, and this
would result in a better chance
of a living for all. Why not every
one of us spend a little more time
learning something about these
subjects?

A TAXPAYER.

CHINOOK SCHOOL BOARD MEET

A meeting of the Trustees of
Chinook Consolidated School Dis-
trict was held in the School on
Saturday evening last. Members
present Messrs. Cliphsham, Hille,
McLean and Varco.

Minutes of meeting of January
26 were read and approved.

That the question of kalsomin-
ing the school be left over until
another meeting.

That after May 1st, the van
shall not call at Jos. Richardson's
information having been received
from the Department that his land
has been withdrawn from the Con-
solidated School District. Also
after that date Mr. Hewitt's chil-
dren be requested to attend in his
own district, such school being
now in operation.

That Auditor's report for 1923
be published in one issue of the
Chinook Advance. For the mo-
tion, Messrs. Cliphsham and Hille.
Against, Mr. McLean.

That Walter Jenks be paid \$5
for disinfecting the school.

The following bills were passed
for payment:

Acadia Produce Co.	2.35
Lorne Proudfoot, Excise stamps	3.00
Mabel Foster, driving to school	4.00
T. Gilbertson, carpenter work	26.25
A. Cliphsham, phone messages	.70
P. Ragan, brooms, duster, brush	11.65
Imperial Lumber Co., on ac.	10.98
Chinook Pharmacy	15.55
Yes. Mun. News, supplies	14.00
N. Ross, auditing	10.00

Also the following payments made
since last meeting approved.

Union Bank, Bison S.D.	
Debiture	107.80
A. Aitken, bal. on note	172.00
Mrs. L. Foster, bal. of salary	71.45
I. W. Deman, coal	132.25
I. Deman, debenture payment	503.00

That all applications for van-
driving must be in writing and
must be sent to the Secretary of
the Board.

EASTER SERVICES

The service on Sunday at the
Union Church was well attended,
and the entire service was very
inspiring. Rev. A. T. Harden
conducted the service and gave
an appropriate Easter message.
The following musical programme
was also rendered: Duet by Mis-
J. Rennie and Miss D. Roberts
Mrs. C. W. Rideout sang a much
appreciated solo, "O rest in the
Lord," and the choir rendered an
Easter Anthem, "Christ is Risen"
The service was very impressive
and enjoyable throughout.

The Easter service at Crystal
school was well attended last Sun-
day afternoon. The next service
at this school will be at 2 o'clock
Sunday, May 4.

The service next Sunday even-
ing at the Chinook church will be
conducted by Mr. R. Smith. A
cordial invitation is extended to
everyone to attend. It is ex-
pected that Mr. T. Marchant, of
Victoria College, Toronto, will
soon be here to take charge of
the church work for the summer
months. Mr. A. O. McNeill, of
Alberta College, is spending the
summer in the Big Stone district.

Record Work of Provincial Police

What is described as the great-
est coup in the seven year's his-
tory of the Alberta Provincial
Police, found its conclusion last
week in the revelation to officials
of the police of the hiding place
of a large proportion of the bonds
stolen from the Union Bank at
Foremost Alberta, and the Royal
Bank at Ladner, B.C.

As a result of the work of As-
sistant Commissioner Nicholson,
of the Police, more than \$300,000
worth of bonds have been re-
covered intact, as a result of con-
fessions made to the Assistant Com-
missioner by one of the men im-
plicated in the robberies.
